

All Terrain e-Scooter 4x4

PURE ELECTRIC DRIVE

Easy start, simple operation, high maneuverability & strong off-road performance

MULTI-SCENE CAPABILITIES

Cross-terrain efficient mobility, material accompanying support, manned-unmanned integrated control

ENHANCED MOBILITY

Adopts manned-unmanned collaborative control+ combined traction-carrying tech, ideal for special ops rapid mobility, infiltration & material support

TECHNICAL SPECIFICATIONS

Model	JJ-eSC40
Weight of scooter body (including battery)	≤160 kg
Maximum loading capacity	≥150 kg
Body size (folded state)	≤1.75 (length) × 0.8 (width) × 0.7 (high) m
Speed gear	Third gear speed regulation
Shock absorption	Front and rear double damping
Type of driving	Manual driving / Remote driving
Driving mode	Two-wheel drive, Four-wheel drive
Remote control distance	≥1 km
Maximum speed	≥30 km/h
Max range	≥60 km
Maximum trench width	≥200 mm
Maximum wading depth	≥200 mm
Maximum gradeability	≥25°
Perceptual ability	Beidou and GPS
