

Off-Road Durable Electric Scooter

Key Features

- **Powerful Dual Motor**
(2x1200W / 2400W total)
Delivers strong acceleration and smooth hill climbing.
- **Long-Lasting Lithium Battery**
Up to 65 km/h top speed, supports long-range commuting or leisure rides.
- **Quick-Fold Design**
Portable and easy to store; ideal for urban riders and travelers.
- **Durable Aluminum Alloy Frame**
Combines lightweight structure with high rigidity and impact resistance.
- **Dual Disc Braking System**
Ensures stable and responsive braking at high speeds.
- **Full Suspension System**
Absorbs shocks for a comfortable off-road riding experience.
- **Waterproof & All-Terrain Ready**
Designed for both city streets and outdoor paths.
- **Smart Connectivity**
Bluetooth, app control, and GPS tracking options.
- **High Load Capacity**
Supports up to 150 kg.

TECHNICAL SPECIFICATIONS

Model	JJ-eSC20
Length × Width × Height	1380×600×1400 mm
Folding Size	1380×600×645 mm
Dimensions (Package)	1480×400×745 mm
Vehicle Wheelbase	1050 mm
Motor Power	800W×2(Peak power: 1200W×2)
Curb Weight of the Entire Vehicle	42 kg
Maximum Load Capacity	150 kg
Rated Voltage	48 V
Maximum Speed	60 km/h
Motor Power	2400 W (2×1200 W)
Voltage	48 V
Battery Capacity	21–30 Ah (Lithium)
Range per Charge	Long-range (depending on load & terrain)
Material	Aluminum Alloy
Braking System	Dual Disc Brakes
Suspension	Full Suspension
Foldable	Yes
Waterproof	Yes
Smart Functions	Bluetooth / App / GPS
Color Options	Light Grey / Black
Plug Type	European Plug
